

THE NIS 2 DIRECTIVE

CYBERSECURITY RISK MANAGEMENT TO-DO'S

To effectively manage system risks and minimize incident impact, organizations must implement technical, operational, and organizational measures. These measures must be based on an all-hazards approach and include at least the following:

-  Policies on risk analysis and information system security 
-  Incident handling 
-  Business continuity and Crisis Management 
-  Supply Chain Security 
-  Security in systems acquisition, development & maintenance 
-  Policies to assess the effectiveness of measures 
-  Basic cyber hygiene practices and training 
-  Cryptography and encryption 
-  Human resources security, access control policies and asset management 
-  Use of multi-factor authentication and secured communications 
-  Secured communications
